

Composite depth (m)

Notes

Location of bore hole A
N35°35'08", E135°52'57",
0 m a.s.l.

Coring period
03/Jul.-11/Aug./2006.

Coring company
Seibushisui Co., Ltd.

Main funding body
NERC (Natural
Environment Research
Council), UK.

Additional supports
International Research
Center for Japanese
studies; University of
Tokyo; Naruto University
of Education; Kyoto
University.
